# CAMPING TENT

High-strength and high-elastic polyester fabrics are high-strength fibers with good strength and toughness, and are not easy to be damaged.

Polyester fabric has a smooth surface and feels comfortable and soft. Polyester fabric surface will have waterproof coating treatment, generally used is the PU coating.

The coating is not only waterproof, but also breathable. They're called breathing fabrics.

4 person

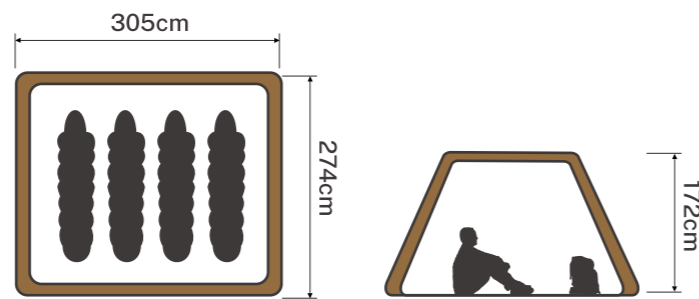

Spacious, comfortable and breathable,  
UV-resistant and rain-resistant,  
suitable for multi-person camping

Colors:  
green, orange, or grey

**SPECIFICATION:**

Item No.: 60109V  
Fabric: 190T polyester,  
PU1200mm.  
Floor: 110G PE  
Size: 274x305x172cm

5 person

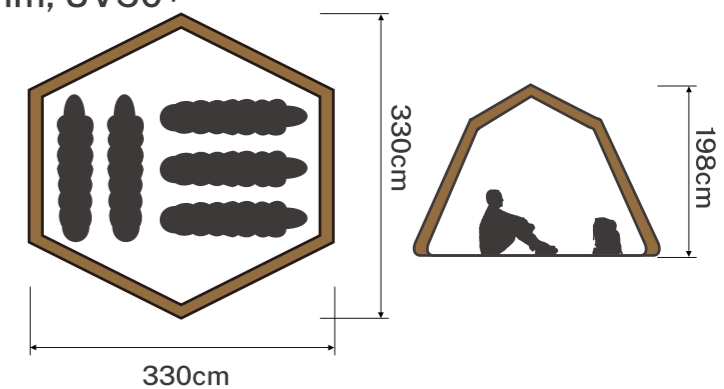

Spacious, comfortable and breathable,

# CAR ROOF TOP TENT

The roof tent is a kind of tent specially used with the car.

It combines the advantages of the car and makes the tent more flexible.

There is no need to consider the environment of the tent, and the tent can be used anytime and anywhere.

The combination of the car and the tent improves the function of the tent, making it more comfortable and convenient.
